

REMARKS

The forgoing amendments are made to insert the required SEQ ID NO identifiers associated with each listed sequence.

In addition, the cancellation of claims 1-18, and addition of new claims 19-36, are respectfully submitted prior to initiation of the prosecution of this application in the U.S. Patent and Trademark Office. The new claims substantially correspond to claims 1-18 respectively, differing in that the new claims are drafted in compliance with standard U.S. practice. No new matter is included in these amendments.

Specifically, claim 19 places claim 1 into proper methods claim format. Claims 20-24 place claims 2-4 respectively, into proper dependent claim format. Additionally, claim 22 places claim 4 into proper Markush group format. Claim 24 places claim 6 into proper dependent claim format and proper Markush group format. Claim 25 places claim 7 into proper methods claim format. Claims 26-28 place claims 8-10 respectively, into proper dependent claim format. Claim 29 places claim 11 into proper methods claim format. Claims 30-31 place claims 12-13 respectively, into proper dependent claim format. In addition, claim 31 recites the sequences of claim 13 by referencing the sequence identifiers. Claims 32-36 recite the sequences of claims 14-18 respectively, by referencing the sequence identifiers.

The replacement of page 3, lines 24-33, page 4 and page 5 lines 1-33 are respectfully submitted prior to initiation of the prosecution of this application in the U.S. Patent and Trademark Office.

The changes to pages 3, lines 24-33, page 4 and page 5, lines 1-33, in the specification merely add sequence identifiers as required under standard U.S. Patent and Trademark Office practice. No new matter was introduced.
